

Rebel Plus

The super-bright cap lamp for industry and outdoors

NLT's rugged, cordless Rebel Plus now features Dual-Beam technology. Designed for surface operations, industrial applications and outdoor use, this all-in-one cap lamp provides a super-bright beam and unparalleled flexibility.

The Rebel Plus' Dual-Beam technology offers three beam patterns: Flood, Spot or Dual-Beam (a combination of the first two). Dynamic Turbo Bright is an added feature that increases light output in any of the three beam patterns by 50% for up to six hours. The cap lamp also provides a low-light setting for extended or emergency use.

The Rebel Plus is an ideal choice for surface mining, construction, industrial, hunting or recreational (including skiing and cycling) use.

The battery and all components of Rebel Plus are serviceable, increasing the life of the lamp, lowering the total cost of ownership and ultimately reducing waste.

NLT Rebel Plus Features:

- Cordless, lightweight cap lamp
- **Dual-Beam technology:**
 - **Focused Spot** – NLT's traditional beam pattern
 - **Wide-Angle Flood Light** – a flat, even light; ideal for close-up work
 - **Dual-Beam** – combines both beam patterns to provide a center spot with great peripheral lighting
 - **Low-Light/Emergency Setting** – reduces light output when needed
 - **Dynamic Turbo Bright** – an added feature that increases light output in any of the three beam patterns by 50%
- IP67
- Components, including the battery, are fully serviceable

SPECIFICATIONS

Light output	10,000 - 15,000 Lux*
Discharge time	13 hours minimum
Charge time	Less than 10 hours
Weight	170g (6.6oz)

*Dynamic Turbo Mode increases to 15,000 Lux

Note: Technical specifications are subject to change without notice.
